

HOW TO DOWNLOAD A MAP

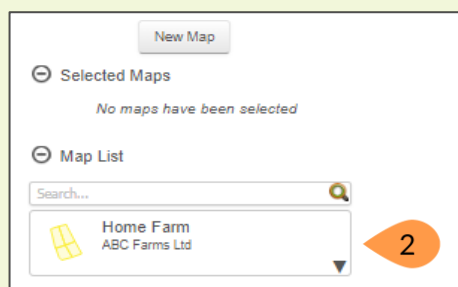

If you need to use a map outside of TracMap for any reason, or you need to give your map to someone who doesn't have TracMap, this can be done by downloading the map.

This document covers how to download a map from your TracMap account.

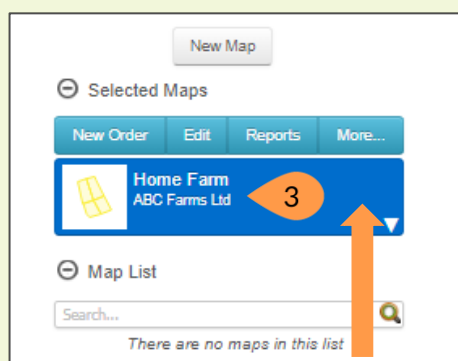

Note: It is recommended that TracMap is accessed using the browser Google Chrome.

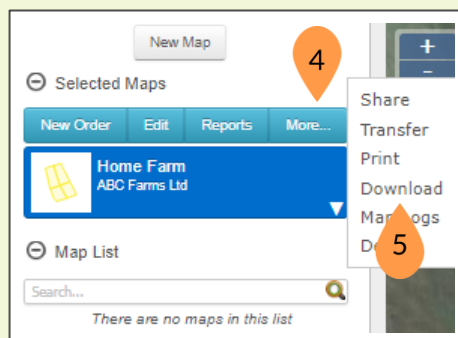

- 1 From the main menu, click on **Maps**

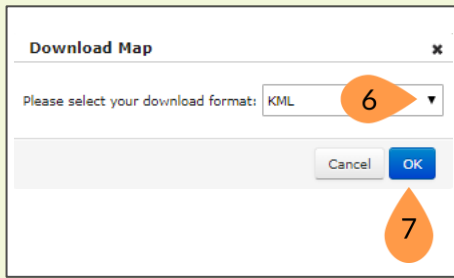

- 2 Click on the map to download

- 3 The map will be moved from **Map List** to **Selected Maps**

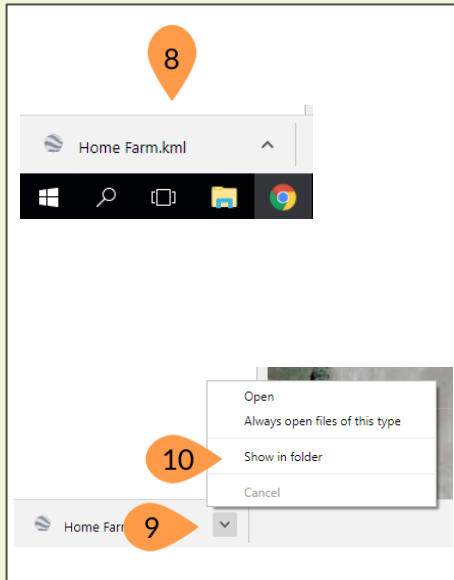

- 4 Click **More**
- 5 Click **Download**

6 Select the file format by clicking on the dropdown arrow
Note: KML and ESRI Shapefile are the most common formats used

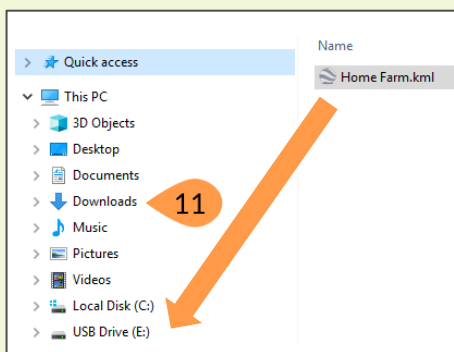

7 Click **OK**

8 Go to your downloads folder

9 Click on the arrow at the end of the downloaded file name

10 Click **Show in Folder**

11 From the folder screen, the file can be dragged from the Downloads Folder to a USB drive or into another location on the computer
