

HOW TO CREATE A CUSTOM FIELD

1. Open up TracMap Online and navigate to the “ADMIN” tab.

A screenshot of a sub-navigation bar with three tabs: "Webhooks", "Fields", and "Customer Setup". The "Fields" tab is highlighted with a dark blue background and white text.

2. In the sub tabs navigate to “Fields” (not if this doesn’t appear, call the 0800 number to get it added to your account).

A screenshot of a dark blue button with the text "Add Field" in white. To the right of the text is a white icon of a document with a plus sign.

A screenshot of a light gray button with the text "Reset" in dark gray. To the right of the text is a dark gray icon of a trash can with an 'x' inside.

A screenshot of a light blue button with the text "Save" in dark blue. To the right of the text is a dark blue icon of a floppy disk.

3. Navigate to the bottom left hand corner of the page where you will see the “Add Field” button. Once you click this a new field will appear.

A screenshot of a light green header bar with the text "New field label" in dark green. To the right of the text is a dark green trash can icon.

Label

New field label

Field type

Text

Connect New field label to the following:

Map

Order

Account

Map Feature

Product

Activities

4. Here you can see you can change the label (what the field will show as). You can also select where you would like the field to appear.

Test field

Selecting the Map Option:

If you tick for the “Map” option. The field will now appear under the “Edit” function under the “Map” tab and in the edit screen under “Map Details”.

Connect to the following:

- Map
- Order
- Send to Display Unit
- Show on New Order

- Activities
- Spray
- Solid

Selecting the Order Option:

You can select to show on “New Order” or to show on “New Order and Send to Display Unit”. This allows you to set a field in the new order that will display on the display unit. You also need to select what activity you would like this to show up on in the Order screen.
