

HOW TO ASSIGN JOBS TO MULTIPLE DEVICES

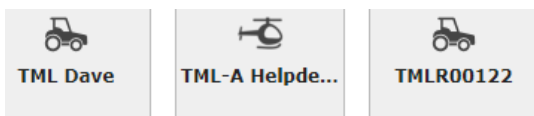

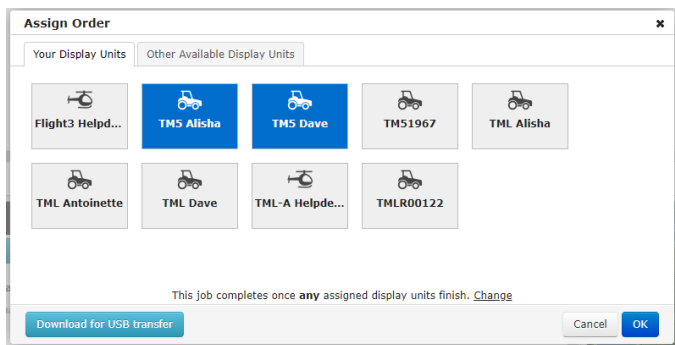

1. Login to TracMap online and navigate to the “JOBS” tab at the top left corner of the page.

Order ID	Customer Name	Due Date
1796636	John Smith Farming	
1779013	TracMap Helpdesk	14/06/2021 6:00 AM
1776535	TracMap Helpdesk	10/06/2021 8:00 AM
1773345	TracMap Helpdesk	02/06/2021 6:00 AM

2. Navigate to your “placed” tab and select the job you need.

3. Navigate down to the job details and select “Assign” from the set of light blue buttons. Once you’ve done this a pop up will appear where you can select the units/vehicles that you would like to assign this job to. You can send the job to more than one device by clicking multiple devices.

This job completes once **any** assigned display units finish. [Change](#)

4. Before pressing “Ok” make sure to check this setting. At the bottom of the pop up there is a line of wording that has the word “Change” unlined. If you click on this it will give us two different options. Once you’ve selected the correct one proceed to press “OK”.
